Life Groups ONLINE!

Several Life Groups are meeting via the internet using smart phones and computers. Below is a listing of the classes that are meeting and the program they are using.

If your class is meeting and you are not connected, email the contact person below and they will get you an invite to join with them online.

If you do not have a class or your class is not listed, feel free to join a class below. Email the contact for an invite.

The "invite" will allow you to join the group. You may have to download an app to your phone or a program to your computer. The app/programs are free and can be removed at any time.
